

CBRC ANALYTICAL FINAL COACHING
MAPEH

1. To enjoy satisfying life, you need to maintain a healthy lifestyle not only in food intake but also in activities that can develop endurance. What particular activities you can do?
 - A. Practice yoga
 - B. Brisk walking and jogging
 - C. Fast running
 - D. Regular exercise
2. Cardiovascular endurance is necessary for you to become a sprinter, which activity promotes the development of the component?
 - A. 3 to 5 k run regularly
 - B. Continues jogging
 - C. Brisk running
 - D. Stationary movement
3. Cardiovascular fitness, body composition, flexibility, muscular strength and endurance are the specific test for one component of physical fitness. What component is being described?
 - A. Skill Related Component
 - B. Socially related
 - C. Health related component
 - D. Emotionally related
4. A Skill Related Component that assure stability and maintenance of an upright posture while still or moving and doing some routine activities
 - A. Agility
 - B. Power
 - C. Reaction time
 - D. Balance
5. Ply metric training requires quick movement from one marker to another. What physical components of a football player can be enhancing with this movement?
 - A. Strength
 - B. Speed
 - C. Agility
 - D. Flexibility
6. In an organization, which of the following is involved in recruiting, subdividing, grouping and coordinating the development of the various kinds of human resource?
 - A. Coordinating
 - B. Staffing
 - C. Organizing
 - D. Controlling
7. It is based on the universal principle "Sports for all" wherein the DepEd professionalizes sports management in every school. Which sports management features physical activities such as Sports, Dance Contest, Cheering Squad and Mr. and Miss within school only?
 - A. Intramural
 - B. Inter-district
 - C. Inter-school
 - D. Division meet

8. In sports elimination, if a team loses once, it is eliminated and only the winning team will advance to the next game. What kind of sport elimination is being described?
- A. Single Round Robin
 - B. Single elimination
 - C. Double elimination
 - D. Double round Robin
9. K to Grade 3 children have difficulty in shooting a basketball through an upright hoop because of this vision-related factor. Which factor is referred to?
- A. Figure-ground perception
 - B. Hand-and-eye coordination
 - C. Depth perception
 - D. Peripheral vision
10. In basketball, a foul is committed against the player who is able to make a goal in spite of the foul. Does the shout counted?
- A. Yes, a free throw is awarded
 - B. No, a free throw is awarded
 - C. No, a jump ball is called
 - D. Yes, the other team will take the ball
11. It is 3 seconds time, team A is behind with 2 points with ball possession. Player of team A who is about to inbound the ball saw a teammate near the opponent's basket free and alone. In order that the receiver is able to shoot the ball within the remaining time, what is the pass to be executed?
- A. Overhead pass
 - B. Chest pass
 - C. Baseball pass
 - D. Bounce pass
12. Stepping into the pass is the most significant factor to stress when executing a pass. What is the most evident action to consider when making follow-through on the chest pass?
- A. Arms are fully extended
 - B. Wrists are fully extended
 - C. Palms are facing downward
 - D. Knees are straight
13. Basketball was first played in Springfield, Massachusetts in 1891. Who created the game?
- A. Abner Doubleday
 - B. James Naismith
 - C. William Morgan
 - D. Kareem Abdul Jabbar
14. Who is considered as the fastest player in basketball and has the control of the ball and also make it sure the ball gets to the right player at the right time?
- A. Center
 - B. Power forward
 - C. Point guard
 - D. Shooting guard
15. Volleyball was first played in Tokyo, Olympics, 1964. It was created by William G. Morgan and named it Mintonette in 1895. Who introduced volleyball in the Philippines in 1910?
- A. Dr. A. F. Halstead
 - B. Underhand Serve

- C. Spike
D. Blocking
16. One important skill in volleyball is service. How do you call a service where in the ball is held at the left hand and a straight forward swing with the right hand, hitting the ball with an open hand or fist, either facing forward or sideward serve?
- A. Overhand Serve
B. Underhand Serve
C. Spike
D. Blocking
17. The player is hitting a forearm pass (underhand pass) and contacts the ball on the thumbs. What will probably happen to the ball?
- A. The will be illegal
B. The control of the ball will be lost
C. The ball will be directed to the intended location
D. The ball might get out of the court
18. Total fitness is necessary in all players. Designated skill must be done and executed in accordance to the rule of the game. What characteristic is most advantageous for the setter?
- A. Strong fingers
B. Flexible wrist
C. Good vision
D. Relaxed shoulder
19. Philippine Folk Dances are classified by nature. What nature dance showed imaginary combat or duet?
- A. Game dances
B. Comic dances
C. War dances
D. Festival dance
20. Identify the dance steps in $\frac{3}{4}$ time signatures with the given step pattern: cross- point step/cross step (rear) step/ cross-step (front) step/close.
- A. Slide polka
B. Bacui
C. Redoba
D. Kuradang
21. There are basic body movements that could enhance flexibility. What movement does not belong to the group?
- A. Abduction
B. Extension
C. Flexion
D. Stretching
22. Gymnastics is one of the most popular and demanding competitive sports. Tumbling and stunts skills are necessary in creating routines. What stunt is being described? Stand straight, take few steps, jump upward, raising two arms upward, extend body forward forming an arch?
- A. Arabesque jump
B. Arch- jump
C. Bridge stand
D. Supine arch
23. During the foundation of Physical Education, Gymnastics was given more importance. Who introduced gymnastics and gave more emphasis on game and game skills?
- A. Thomas Dennison Word
B. Niels Bukh
C. Hjalmar Fredrick Ling
D. Gustaf Nybleus
24. Tumbling is a basic motor skill that needs courage and determination. It covers the mechanics of turning, rolling, twisting, and springing. Which does not belong to tumbling skills?
- A. Forward roll
B. Backward roll
C. Cartwheel
D. Head balance
25. What is the important part of gymnastic needed to be able to perform on a balance beam and made routine?

- A. Tumbling
- B. Floor exercise
- C. Balancing
- D. Calisthenics

26. Among the given definition of Health below, which one is the definition of World Health Organization?

- A. Health is wealth
- B. Health is the complete state of physical, mental, social and emotional well-being of the individual and not merely the absence of disease or infirmity
- C. Health is an important priority of every school program
- D. Health is a state of being

27. School Health Program must be made very effective and visibility of given support in making health education as one of the priority in the program. Which component of School Health program focus in helping the students to gain and bring out their knowledge, skills and health literacy needed?

- A. School Health Instruction
- B. School Nutrition and Food Service
- C. School Health Promotion
- D. Health services

28. Nutritional assessment is very important to every student. There are methods use to check nutritional status. What is the method that involves laboratory test of various fluids and body tissues for urine test, CBC, or hemoglobin test?

- A. Clinical assessment
- B. Anthropometric assessment
- C. Dietary assessment
- D. Biochemical assessment

29. Consumer must be aware of their rights when buying products. Which one does not belong to the group?

- A. Right to Safety
- B. Right to Complain
- C. Right to Information
- D. Right to create trouble

30. Making wise decision about spending money and time is one of the emphases of consumer's health. Advertisement creates attraction to make their products known. What methods of advertisement relay a message that a product is effective because the people who use it are knowledgeable, trustworthy and well known?

- A. Image appeal
- B. Bandwagon appeal
- C. Trust appeal
- D. Snob appeal

31. A wise consumer have responsibilities that can help in getting a healthier products with the services needed. How do you call that the responsibility of becoming more alert on the quality, price, use of goods and services?

- A. Action
- B. Solidarity
- C. Social concern
- D. Critical awareness

32. Safety awareness is very one concern because accidents happened anytime, anywhere. There are several factors that help prevent accidents? Which one does not belong to the group?

- A. Knowledge and awareness
- B. State of mind
- C. Environmental condition
- D. Attitude and emotion

33. Accidents are classified accordingly, and one cause of it is the use of drug and alcohol that can prohibit good senses and judgment. What classification is being described?

- A. Accident in the school
- B. Accident in the home
- C. Vehicular accident
- D. Accidents in public place

34. Natural calamities brought a lot of changes, severe suffering and even death. Often times it is the result of advantage technology or human mistakes, but most tragedy happened when natural calamities start. Which one is not safety measure when natural calamities occurred?

- A. Don't attempt to go outside, drive or travel.
- B. Evacuate the area immediately after an alarm was given by local official or as heard on the radio.
- C. Use crosswalk and look right and left before crossing.
- D. Have enough supply important commodities needed and ready during evacuation.

35. Air pollution endangers human health and produces some negative effects on living matters. Which one is the most dangerous source of air pollution that comes from vehicles and responsible for 60% of all air pollution and 80% in cities, containing leads a very harmful chemical?
- A. Exhaust gases
 - B. Combustion of coal
 - C. Acid rain
 - D. Tobacco smoke
36. Among the type of pollution, which one is brought about by the introduction of chemicals, physical or biological materials, that affects the quality of the liquid and the organism living in it?
- A. Noise pollution
 - B. Land pollution
 - C. Water pollution
 - D. Air pollution
37. Concepts about waste management vary in accordance to usage between countries or regions. Which one is not included?
- A. Waste hierarchy refers to 3R's. (reduce, reuse and recycle)
 - B. EPR (extended producer responsibility) is meant to impose responsibility over the products and packaging introduced to the public.
 - C. Polluters pay principle- refer to a requirement for a waste generator to pay for disposal of the waste.
 - D. Waste collection is often provided by local authorities or by private companies in the industry.
38. Among the given definition, which one is the Environmental Health definition as define by WHO? (World Health Organization)
- A. It refers to the theory and practices of assessing and controlling factors in the environment that can potentially affect health.
 - B. It is the collection, transport, processing, recycling or disposal of waste materials.
 - C. It is method in which solid organic waste are subjected to combustion and reuse of waste materials.
 - D. Refers to the collection and reuse of waste materials.
39. Microorganisms are classified accordingly, which one is not classified as microorganism?
- A. Bacteria
 - B. Mosquito
 - C. Fungi
 - D. Yeast
40. The infectious disease process is illustrated in chain and the interaction of the six factors in producing disease. Which one represents the sixth link in making a disease?
- A. Pathogenic microorganism
 - B. Mode of transmission
 - C. Reservoir
 - D. Susceptible host
41. The infectious process is defined as the interaction between the pathogenic microorganism, the environment and the host. It is often known as the triad of disease, how can one avoid the presence of diseases?
- A. Exercise every day and eat balance diet.
 - B. Enjoy a happy and fabulous lifestyle.
 - C. Have a regular check with your family physician.
 - D. Be an environment concern and join worthwhile activities for its improvement.
42. What is the concrete definition of communicable disease?
- A. Disease that are proven to be curable, like tuberculosis, on early detection.
 - B. Diseases that runs in the family like diabetes, high blood or heart.
 - C. Disease caused by infectious microorganism.
 - D. Diseases that can be transmitted from one person to the other.
43. If you happened to see a vehicular accident, what will be the chronological order in things to do in case of emergency?
- I. Rescue the victim
 - II. Check the victims breathing
 - III. Control severe bleeding
 - IV. Get help

- A. I, IV, II, II
- B. II, I, III, IV
- C. I, II, III, IV
- D. IV, I, II, III

44. Burn is classified according to the extent of damage to the skin. What classification is a very serious burn in which the deeper layer of the skin and nerve are damage?
- A. First - degree burn
 - B. Second - degree burn
 - C. Third - degree burn
 - D. Simple burn
45. Do not make the victim vomit if accidentally or intentionally taken acid, gasoline, or thinner. What common emergency can receive the kind of first aid?
- A. Poisoning
 - B. Painting
 - C. Nosebleed
 - D. Dog bites
46. Injuries on bones, joints and muscles are the results of unplanned action or activities. What is the injury of the bone which does not pierce the skin?
- A. Compound fracture
 - B. Dislocation
 - C. Sprain
 - D. Closed fracture
47. Emergency cases need immediate care treatment. Among the given disease, which one is NOT an emergency case?
- A. Heart attack
 - B. Appendicitis
 - C. Cancer
 - D. Convulsion
48. Knowledge on transferring a victim of accident is important because it helps in keeping and moving a victim into a safer location and condition. One way of transferring is One – man - carry wherein the lifting and carrying is done by one person only. What kind of carry is being done if the victim is unconscious and a crawl position is under taken to pull the victim?
- A. Feet drag
 - B. Blanket drag
 - C. Fireman drag
 - D. Body drag
49. One day you are having P.E class in the gymnasium and suddenly you heard a long alarm because of earthquake. What is the first move you will instruct your students to do?
- A. Duck to a safe place, cover head
 - B. Observes and feels the shaking
 - C. Run the best you can in going down
 - D. Move at once after but don't panic
50. All medicines are drugs but not all drugs are medicine. What drugs increase the activity of the brain and other parts of the nervous system and also known as uppers?
- A. Stimulants drugs
 - B. Depressants
 - C. Hallucinogen drugs
 - D. Prohibited drug
51. It is a drug with medical used and also prescribed by physician especially in the treatment of depression and narcolepsy. What kind of stimulants is being described?
- A. Shabu
 - B. Cocaine
 - C. Amphetamine
 - D. Ecstasy
52. The government policy about drug is to uphold the integrity and well-being of the people fight against dangerous drugs. What is the government body enacted in 2002 to fight and control drug abuse and misuse, otherwise known as Comprehensive Dangerous Drug Act of 2002?
- A. Republic Act No. 9165
 - B. Republic Act No. 6465
 - C. Executive order No. 233
 - D. Republic Act 9744

53. The game was first played in China and become well known in India as "Poona" and "Battledore" in England. What sport is being described?
- A. **Badminton**
 - B. Table tennis
 - C. Arnis
 - D. Chess
54. What is the official measurement of the Badminton court for doubles?
- A. 44 ft. long / 17 ft wide
 - B. **44 ft long / 22 ft wide**
 - C. 9 ft length / 5 ft width
 - D. 28 mt length / 15 mt wide
55. Both badminton and table tennis can play in singles and doubles. How do you call a match where two players of opposing team are playing?
- A. **Rally**
 - B. Serving Side
 - C. Singles
 - D. Doubles
56. In table tennis, which stroke serve as a basic offensive shot?
- A. Push shot
 - B. Forehead topspin shot
 - C. Forehand drive
 - D. **Backhand drive**
57. Arnis consider to one of the oldest self – defense of the Filipinos. There are three well known forms of the play on Arnis. Which form of play uses only a single stick during the game?
- A. Espada y Daga
 - B. Sinawali
 - C. **Solo baston**
 - D. Cross – stance
58. To assure winning, a player must master skills in Arnis, but should learn first proper stance and posture. What stance is performed by putting one leg forward (R/L) forward and let the toe touched the ground with pivot at the same time at the back?
- A. Back leaning stance
 - B. Straddle stance
 - C. **Forward stance**
 - D. Cross –stance
59. There are also essential elements important to become a good fighter, which one does NOT belong to the group?
- A. Techniques and skills
 - B. **Prevention and control**
 - C. Coordination and concentration
 - D. Alertness and awareness
60. Who was the grandmaster and made the return of Arnis as one of the most applauded martial arts?
- A. **Ernesto Presas**
 - B. Vicki Keith
 - C. Richard Cavill
 - D. Elwood S. Brown
61. The track oval is an area where all running events being held. How many lanes are there in a standard track oval?
- A. Nine (9)
 - B. **Eight (8)**
 - C. Seven (7)
 - D. Ten (10)
62. Throwing events needs some training and exercise that could enhance shoulder strength and power in order to give the best in throwing. What event required a rule that the equipment use must land tip first and must leave a visible so that it will be counted or valid?
- A. Discus throw
 - B. Shot pot
 - C. **Javelin throw**
 - D. Hammer throw
63. What is the most important factor that contributes to the decline of PE recently?
- A. **More subjects in the school curriculum and focus on academics leading to reduced time allocation in PE**
 - B. Dominance of technology and prevalence of sedentariness (inadequate physical activity) leading to irrelevance of PE as a subject
 - C. Lack of professionalization in PE (PE teachers are non-specialists; poor quality of degree programs in PE)

- D. Focus on sports that cater to athletes' needs instead of the majority of students' need to achieve and maintain fitness and health through sporting activities
64. In teaching gymnastics techniques and strategies are very essential in teaching new skill. "IDEA" is good technique in doing so, which one DOES NOT belong to IDEA?
- A. Introduce the skill
 - B. Demonstrate the skill
 - C. Enumerate the skill
 - D. Attend to the students practicing the skill
65. Gymnastics is one of the most popular sports, not only in Olympic program but also on local or school competition. It is well represented by discipline, what discipline show performance on top of the heavy apparatus?
- A. Artistic gymnastic
 - B. Aerobics gymnastic
 - C. Rhythmic gymnastic
 - D. Acrobat gymnastic
66. Who were the Greek philosopher and medical man who contributed in the development of Physical Education?
- A. Herodotus
 - B. Plato
 - C. Socrates
 - D. Aristotle
67. It is one of the psychological aspects of Physical Education that favours on the teaching of skills and provide opportunity to practice until the skills is mastered.
- A. Stimulus Theory of Learning
 - B. Surplus Energy Theory
 - C. Reaction Theory
 - D. Cognitive Theory of Learning
68. Physical literacy is best described as a composite of:
- A. Health-related, skill-related and physiological fitness that enable student to perform a variety of physical activities
 - B. Body management, locomotor and non-locomotor and object control or manipulative skills that enable students to perform a variety of physical activities
 - C. Games, sports, rhythms and dance that lead to improved fitness and maintenance of good health
 - D. Fundamental movement, motor and activity specific skills that equip students for an active lifestyle
69. One of the pioneers of physical education believes that physical education is an aid to the growth and development of the pupils.
- A. Johan Basedow
 - B. Adolf Spiess
 - C. Friedrich Ludwig Jahn
 - D. Friedrich Guts Muths
70. It is a theory of play declaring that human beings have an instinctive tendency to be active at various stages of their lives.
- A. Social Contact Theory
 - B. Inheritance of Recapitulation Theory
 - C. Instinct Theory
 - D. Self-Expression Theory
71. What strategy can be used to develop skills through physical activities?
- A. Demonstration
 - B. Cooperative Learning
 - C. Team Teaching
 - D. Group Training
72. What strategy can enhance student's leadership mostly in Physical Education?
- A. Group Report
 - B. Circular Response
 - C. Practical Test
 - D. Brainstorming
73. The state shall promote and maintain equality access to education as well as the enjoyment of benefit by its entire citizen. (BP blg.232). What Republic Act provides the rehabilitation, self-development and reliance and the integration into mainstream of society?
- A. Republic Act 7277
 - B. Republic Act 874
 - C. Republic Act 7394
 - D. Republic Act 344

74. Design is the artist means of sharing and expressing ideas he wishes. What principle of design is the most important principle that shows adaptation of elements to each other?
- A. Variety
 - B. Rhythm
 - C. Balance
 - D. Harmony
75. Sculpture is a form of aesthetic expression in which hard or plastic materials used forming into a 3- dimensional art objects. What is the principal material if it is shaped, glazed and baked?
- A. Terra Cotta
 - B. Bronze
 - C. Stone
 - D. Casting
76. Architecture is the art of designing structure and during the Greek period there evolved orders of column. What orders of column are the most simple, no base and grooved shaft. Best examples are Parthenon and Temple of Hephaestus?
- A. Ionic
 - B. Doric
 - C. Corinthian
 - D. Tuscan
77. Philippine architecture creates five types of bahay kubo as part of indigenous architecture. Which bahay kubo is built for protection from low temperature and the rains?
- A. Tree House
 - B. Bahay –kubo
 - C. Ifugao kubo
 - D. Maranao house
78. It is an element of arts relative to degree of lightness and darkness of colours that gives impression of distance and depth illusion.
- A. Light and shadow
 - B. Value
 - C. Form and shape
 - D. Volume
79. The multimillion painting which showed unmarkable feelings about war was painted by Juan Luna and known as “SPOLARIUM”. Who is the pioneer of modern architecture of the Quiapo Church?
- A. Francisco Manosa
 - B. Juan Nakpil
 - C. Tomas Mapua
 - D. Juan Arellano
80. Who was known as the father of modern painting, and member of the triumvirate?
- A. Victor Edades
 - B. Cezar Legaspi
 - C. Hernando Ocampo
 - D. Jose Joya
81. Every artist strives for perfection for his technique as a part of philosophy. What dynasty accepted only known scholars and philosophers as royal court painter?
- A. Tang Dynasty
 - B. Han Dynasty
 - C. Hang Dynasty
 - D. Ban Chiang early period
82. Who was the first director of the University of the Philippines School of Fine Arts?
- A. Juan Luna
 - B. Jose Rizal
 - C. Damian Domingo
 - D. Fabian Dela Rosa
83. If wooden coffin came from Romblon and wooden boat in (“Balangay”) Butuan City. Where bladed weapons do comes from?
- A. Marawi City
 - B. South Cotabato
 - C. San Dionesio, Iloilo
 - D. Batangas
84. Several art forms are used by the artist. Expressionism is one form of that pervaded with feelings of anxiety, loneliness, isolation and despair. Who is the expressionist artist whose famous work was “The Head Of Christ”?
- A. Gustav Klimt
 - B. George Rouault
 - C. Warner Sallman
 - D. Henry Matisse

85. Art forms give simple ideas and meaningful techniques. Which art form use arrangement of geometrical forms representing what is seen?
- A. Dadaism
 - B. Realism
 - C. Cubism
 - D. Surrealism
86. Art can be a best medium of communication. Which one is NOT a function of Art?
- A. It improve man's behavior into social undertakings
 - B. It gives man strength to overcome loneliness, boredom and restlessness
 - C. It gives man sometime for relaxation
 - D. It provides shelter
87. If rhythm is the heartbeat of music, what do you call the basic unit of music?
- A. Accent
 - B. Beat
 - C. Dynamics
 - D. Meter
88. Dynamics is the loudness or softness of a sound. Which of these terms describes the quality of sounds?
- A. Melody
 - B. Rhythm
 - C. Texture
 - D. Timbre
89. Scale is a succession of eight consecutive tones arrange in whole or half steps. Which of the following is a succession of tones arranged to make a musical sense?
- A. Form
 - B. Harmony
 - C. Melody
 - D. Rhythm
90. How do you call a musical composition of motives that speaks out an idea in a musical composition?
- A. Motive
 - B. Phrase
 - C. Style
 - D. Timbre
91. Comprehensive health education fosters student resilience through the coordinated teaching of health, family and consumer sciences and physical education. What does this imply?
- A. For greater focus and in-depth treatment of topics in health only health topics are discussed in Health
 - B. The health of children is the primary and sole responsibility of parents
 - C. Health education integrates Health, Home Economics and Physical Education
 - D. The child's health is primarily his/her own making
92. Jed Madela has a high brilliant voice. How will you classify his voice?
- A. Alto
 - B. Bass
 - C. Soprano
 - D. Tenor
93. If the tenor is the highest voice for men, what is the highest voice for a female?
- A. Alto
 - B. Bass
 - C. Soprano
 - D. Tenor
94. The prominent composition for solo instrument with the accompaniment of orchestra during the classical period.
- A. Aria
 - B. Concerto
 - C. Opera
 - D. Sonata
95. Despite becoming deaf, who is this composer acclaimed "Prince of all Composers" on whose composition the sonata forms reached its perfection?
- A. Beethoven
 - B. Chopin
 - C. Mozart
 - D. Schubert

96. What period in history that shows deep interest in love, beauty of nature, temporary happiness, and is characterized by freedom of expression in music and arts?
- A. Baroque
 - B. Classical
 - C. Contemporary
 - D. Romantic
97. What is the structure of a melody basically built from?
- A. Dynamics
 - B. Rhythm
 - C. Scale
 - D. Tempo
98. Who is the Filipino musicologist who participated in Musique Concerte?
- A. Nicanor Abelardo
 - B. Jose Maceda
 - C. Antonio Molina
 - D. Ramon Santos
99. It refers to two songs with the same harmonic structure:
- A. Descant
 - B. Ostinasto
 - C. Partner song
 - D. Round song
100. What is the musical form wherein the melody is repeated in different stanzas?
- A. Binary form
 - B. Rondo
 - C. Ternary
 - D. Unitary
101. What do you call the orchestra of Indonesia that accompanies the shadow puppet show, dances, wedding, and other celebrations?
- A. Angklung
 - B. Gamelan
 - C. Kulintang
 - D. Rondalla
102. Range of a particular melody could either be wide or narrow depending on the distance between the highest and lowest tones. Which of the following songs has a wide range?
- A. Ati cu pung singsing
 - B. Ili-ili tulog anay
 - C. Leron-leron sinta
 - D. Pamulinawen
103. There are basically four families or section of symphony orchestra. What family of instruments is present in an orchestra but not in a marching band?
- A. Brasswind
 - B. Percussion
 - C. String
 - D. Woodwind
104. Nolyn Cabahug's voice like that of Pavarotti has this classification:
- A. Alto
 - B. Bass
 - C. Soprano
 - D. Tenor
105. East Asian countries like China, Japan, Korea, use the so called 5 tone scale. What is its other term?
- A. Diatonic
 - B. Chromatic
 - C. Heptatonic
 - D. Pentatonic
106. The famous string instrument of Japan with 13 silk strings lay horizontal on the floor.
- A. Biwa
 - B. Chin
 - C. Kayagum
 - D. Koto
107. Which part of the human body is mainly responsible for the quality and range of the human voice?
- A. Diaphragm
 - B. Esophagus
 - C. Larynx
 - D. Vocal chord
108. A drama set to music with characters, costumes, and scenery and orchestra accompaniment.

- A. Aria
B. Concerto
C. Opera
D. Overture
109. What is the classical spectacular, and the most eloquent form of dance introduced in an opera or stage play?
A. Ballet
B. Ballroom dance
C. Break dancing
D. Ethnic dance
110. Which practice goes with authentic assessment?
A. Make students play volleyball to determine if they learned how to play volleyball
B. Make students recite the do's and don'ts of playing volleyball
C. Make students check their own answers after a quiz
D. Make students come up with a flow chart to demonstrate a process
111. If Sakura is a Japanese folk song, what is for the Chinese?
A. Arirang
B. Mo Li Hua (Jasmine)
C. Namane Kare Chature
D. He Ruea
112. What is the continuous, monotonous but soothing sound heard throughout the composition of Indian music?
A. Drone
B. Raga
C. Shruti
D. Tala
113. Based on the scale of Indian music, which of the following are the 7 notes in proper order?
A. Re, Ga, Ma, Sa, Pa, Dha, Ni
B. Sa, Re, Ga, Ma, Pa, Dha, Ni
C. Sa, Re, Ma, Dha, Ni, Pa, Ga
D. Sa, Re, Dha, Ni, Pa, Ga, Ma
114. How are the microtones of Indian music called?
A. Raga
B. Shruti
C. Tala
D. Rasa
115. Which of the following musical instrument does not belong to the Thai music ensemble?
A. Gamelan
B. Kruang-saay
C. Mahon
D. Pi-phat
116. It is the actual conducting technique or physical movement of a conductor
A. Choir
B. Choral conducting
C. Etude
D. Solfeggio
117. If rest is a musical symbol that represents silence, what is used as a symbol of a tone?
A. Bar line
B. Measure
C. Note
D. Tempo
