

PEDAGOGY IN MAPEH PRACTICE TEST

- Guidance
v
Explicit
1. Teacher Ana, in her Art Education class, let her students cite evidences from specific works of art to support their understanding, notice each works, and draws on it. What principle of teaching Arts did teacher Ana is her practiced based?
a. learner-centered
b. subject-centered
c. developmentally appropriate
d. multiple-Intelligences learning
 2. In Art Education, what comprises citing evidences, features or details from specific artworks?
a. interactive process between art and student
b. learning artistic skills
c. explicit learning progression
d. multiple intelligences learning experience
 3. As students in Art advance, they should be able to cite evidence from specific works of arts, such as specific features in painting, the details of a score or a script. As students develop, they should be able to gather and share more evidence to support their understanding; they should notice more in each work, and be able to draw on it. Which principle in teaching Art is explained in the above paragraph?
a. Allowing students to learn with learning styles
b. providing multiple-intelligences based learning experiences
c. providing an explicit learning progression in the arts that is developmentally appropriate
d. providing for more interaction between students and art work
 4. In her Art classes, Teacher Zeny asks her students to gather and share ideas and evidences to support their continuing understanding of works of art. What kind of instructional approach is Teacher Zeny adopting in her class?
A. Outcome-based instruction
B. Objective setting in instruction
C. Knowledge-based instruction
D. Learning progression in the arts
 5. There was no actual classroom teaching that happened during the Covid-19 pandemic. But, which among the following teaching strategies in MAPEH subject is the best to use?
a. Self-Regulated and individualized Learning
b. Uploading videos of demo performances and skill-based tasks
c. Using emails and messenger in forwarding lessons and activities
d. Sending printed modules through courier or parcel
 6. The judges applied the Directly proportional Method in assessing the solo performances, and so they focus on _____ of each performer.
a. harmonies of the singers
b. Impact of performance
c. Number of mistakes
d. Melodies of the song
 7. How should you match an appropriate assessment with learning objective: demonstrates physical skills and teaming on playing volleyball.
a. Demonstration - Learning journal
b. Watching volleyball game - observation log
c. Actual Game Presentation - Using Rubrics
d. Watching PVL in Television- Observation Log

FALCULAN TWINS' REVIEW CENTER
BCAED AND BPED MAJORSHIP REVIEW
SEPTEMBER 2026 LICENSURE EXAMINATION FOR TEACHERS

8. What is the concern of the physical educator in teaching for skill learning?
- The physical educator is concerned with attitudes, appreciations, and values toward physical activity.
 - The physical educators is concerned in increasing the individual's knowledge, improving problem solving abilities, clarifying, understanding and developing and identifying concepts.
 - The physical educator is concerned with motor learning and motor control.
 - The physical educator is concerned with the development of motor skills.
9. **Rehearsal** is known as the process in MAPEH (in dance, drama, etc.) where students are provided opportunities for meaningful and appropriate learning through _____?
- Conditioning
 - Association
 - Feedback
 - Dry Runs
10. In teaching for affective learning, the physical educator is concerned with _____.
- The acquisition of motor skills
 - The understanding of concepts presented
 - The instilling of qualities and values.
 - The realization of learning potentials
11. The physical education teacher grouped the students in his class and gave important task to be accomplished. One of his objectives is to give opportunity to each member of the group to make his own decision. This is opportunity for the students to _____.
- Acquire the need for affection
 - Feel the sense of belongingness
 - Be independent
 - Achieve social approval
12. Which of the following statement reflects an existentialist teacher of physical education?
- Provides activities that give students the opportunity to develop the qualities of honesty, courage, creativity and sportsmanship.
 - When the physical educator uses the problem-solving method in teaching an activity to affect learning.
 - Provides individualized learning through self-activity that leads to the attainment of individual goals.
 - Uses drills extensively after instructions.
13. All of the following statements are naturalistic view of physical education EXCEPT _____.
- Developmentally appropriate physical activities at all levels of instruction are used.
 - Activities are socializing in nature
 - Physical educators emphasize individualized learning.
 - The physical educator allows normal growth.
14. As a teacher, in what way will you best conduct a culminating activity in visual artworks of students?
- Ask parents and students to lend displays in their house
 - Put up an exhibit in the lobby and student path walks
 - Ask for entrance fee to gauge the activity expenses
 - Display student's visual artworks and invite parents to see them
15. The physical education teacher routinely checks the first aid kit, tests the batteries in the defibrillator, checks the playing fields for holes, and inspects equipment for damage. By preparing for classes in this manner, the teacher demonstrates the importance of
- implementing the school's physical education curriculum
 - supporting the school's philosophy and values
 - creating a safe physical education learning environment

- d. assisting other staff members to fulfill their duties
16. During a physical education unit that focuses on the development of health-related fitness, a teacher asks students to keep a journal about their individual responses to three different types of cardiovascular activities— such as heart rate, perceived rate of exertion, and motivation—and write a journal entry on how they personally felt about each activity. This journaling is an example of
- a. criterion-referenced grading
 - b. differentiated instruction
 - c. identification and recall of information
 - d. standards-based instruction
17. Which of the following technology applications would best support a wrestler's learning a new takedown technique?
- a. Reading about the proper technique and procedure on the Internet
 - b. Recording the wrestler's performance and having the wrestler view it on a video screen
 - c. Viewing a series of pictures of proper execution on a video screen
 - d. Exchanging e-mail messages with other wrestlers about their experience of learning the technique
18. Which of the following sets of tasks would be the best for a physical education teacher to complete and adhere to in the beginning of the school year in an effort to establish good classroom management?
- a. Establishing rules and reviewing them with students, creating a record-keeping system, and teaching students a predetermined signal to stop activity
 - b. Posting rules on the wall, not smiling until November, and learning students' names
 - c. Learning students' names, teaching the class how to do warm-ups, and playing a fun game
 - d. Having an open gym period, posting rules on the wall, and creating a recordkeeping system
19. Which of the following would be the most appropriate way for a teacher to assess the skills of students during a basketball skills unit?
- a. Using standardized instruments on basketball skills at the end of the unit
 - b. Using district-devised assessments of skills at the end of the unit
 - c. Developing a rubric to assess learners as they move through the unit
 - d. Counting the number of baskets made in a class game
20. Which of the following best describes the learning style of students brainstorming in small groups to choreograph a dance?
- a. Divergent
 - b. Convergent
 - c. Accommodative
 - d. Assimilative
21. Which of the following teaching styles best allows students an opportunity to reflect on what they learned and what they need to improve on?
- a. Small group
 - b. Task
 - c. Command
 - d. Guided discovery
22. Learning about sport rules, traditions, history, and etiquette falls under which of the following domains of learning?
- a. Affective
 - b. Psychomotor
 - c. Cognitive
 - d. Associative
23. Which do you think develops the students' positive attitude in social skills to achieve high level of well-being and great effect on the learning achievement in school?
- a. Health Education
 - b. Extra-Curricular Activities
 - c. Movement Education

FALCULAN TWINS' REVIEW CENTER
BCAED AND BPED MAJORSHIP REVIEW
SEPTEMBER 2026 LICENSURE EXAMINATION FOR TEACHERS

d. School Competition

24. Of the following, who are the least participative in the “hands-on, minds on” learning of MAPEH sports activities?

- a. The referees
- b. The officials who manage
- c. The players who play the game
- d. Those who watch the games

25. What can be said about the nature of MAPEH subjects when these encompass other allied sciences for enrichment and holism purposes?

- a. These belong to on discipline
- b. These are interdisciplinary
- c. These are departmentalized
- d. These are inclusive

26. What is given stress by teachers under the Weiners' Attribution theory?

- a. Effect of the competitive spirit on the athletes
- b. Individual ability for performance outcomes
- c. Extrinsic factors like coaching and training
- d. Importance of motivational support from coaches and trainers

27. What principle is most appropriate to teaching MAPEH in accordance with the sequential stages of development of the learners?

- a. Experience-based
- b. Progressive learning
- c. Interactive learning
- d. Focus on learning styles

28. Since MAPEH is focused on skills, assessment is expected to be by ways of ____.

- a. Performance and products
- b. Coaching and trainer reports
- c. Written tests and evaluation
- d. Teacher monitoring and assessment

29. How is MAPEH best characterized by the fact that it encompasses health education, physical education, family and consumer sciences?

- a. It is indispensable to the curriculum
- b. It is a good elective subject
- c. It is interdisciplinary
- d. It complements basic education

30. You wish to find out how MAPEH interests students in K-4 classes. Which data will you gather?

- I. Student attendance in MAPEH classes
 - II. Student projects in MAPEH
 - III. List of MAPEH lesson topics
 - IV. Student rating of MAPEH teachers
- a. II, III and IV
 - b. I, II and III
 - c. I only
 - d. I, II and IV

31. Find which of the following concepts are mismatched:

- a. Music : : Styles in composition
- b. Physical Education : : Drug use and abuse
- c. Arts : : Color and tone
- d. Health Education : : Wellness

FALCULAN TWINS' REVIEW CENTER
BCAED AND BPED MAJORSHIP REVIEW
SEPTEMBER 2026 LICENSURE EXAMINATION FOR TEACHERS

32. These are main reasons for formulating lesson objective outcomes in MAPEH subjects, but **NOT** to include ____.

- a. Giving a sense of direction in learning
- b. Constructing appropriate tests
- c. Providing an overview of lessons
- d. **Avoiding derailment of lessons to be learned**

33. How can the bell-curve mentality be avoided, such as in a dance class?

- a. Through repeat performance
- b. Through diagnostic test
- c. **Through peer rating of performance**
- d. Through use of strict discipline

Rationalization:

Rather than giving students the grades that reflect their actual performance, the Bell Curve mandate forces professors to judge students' performances against those of others.

The Bell Curve also demands that professors only give a limited number of As in a module and a course, regardless of how well students do. Hence, many A-deserving students will be given a B or even a lower grade for the bell shape to be achieved.

34. How is motivated learning of Physical Education best described?

- a. It is an experience of success and failures
- b. It displays high degree of skills
- c. It is challenging to students
- d. **It gets positive feedback**

35. Among key phases and processes in implementing school projects, e.g. Music week celebration, which of the following has the broadest scope for program formulation and control?

- a. Closing the project
- b. Managing risks and issues
- c. Controlling change
- d. **Planning and management**

36. Music and art education in MAPEH deserves active participation, but the least manner of achieving this is by ____.

- a. Interpretation
- b. Creative expression
- c. **Aesthetic appreciation**
- d. Replication

37. What should the teacher adopt to help students in not incurring heavy expense in MAPEH projects?

- a. **Moderation in assignments**
- b. Funding from the PTA
- c. Seek donations
- d. Projects for selected students only

38. In the total approach to instruction, what component was lacking when Teacher Izza wasn't able to coordinate and schedule the use of the media laboratory?

- a. Methods to be used
- b. Instructional materials
- c. **Facilities or environment**
- d. Objectives and content

FALCULAN TWINS' REVIEW CENTER

SEPTEMBER 2026 LICENSURE EXAMINATION FOR TEACHERS

39. On types of standardized tests, which determines a person's ability, such as basic skills in dance or the arts?
- Intelligence test
 - Personality test
 - Achievement test
 - Aptitude test**
ability
40. The following are examples of technology software useful for teaching and learning but NOT to include
- Computer printer**
 - Word processing
 - Database/Spreadsheet
 - Web browser
41. Mr. Perth handles a regular class with one mainstreamed blind student. What can he do during PE class?
- Modify instruction**
 - Modify activity
 - Modify rules
 - Modify equipment
42. Which of the following method would be most appropriate for students to develop refusal skills?
- Lecture about the concept of refusal skills.
 - Have the students role-play various refusal skills.**
 - Have the student collect and bring in magazines to create collage.
 - Have students hold a lengthy discussion on how to stand up to peer pressure.
43. Article XIV, section 19 of the 1967 Constitution states that. "The State shall promote physical education and sports programs and league competitions". In line with this provision, what should the P.E teachers emphasize?
- Academic units of Physical Education as a subject
 - Separation of league completion from sport programs
 - Role of Physical Education in a dynamic professional competition
 - Importance of Physical Education in the Curriculum and its promotion as a function of the government**
44. What is a teacher-directed approach to teaching MAPEH subjects?
- Demonstration**
 - Stage plays
 - Role playing
 - Question and answer
45. What does UDL stand for in educational program design?
- United Development Learning
 - Universal Design for Learning**
 - Unique Differentiated Learning
 - Uniform Design Logic

Rationalization:

- is a way of designing lessons so that **all students can learn**, no matter their abilities, needs, or learning styles.

It means teachers plan lessons that are:

- **Flexible** — can be changed to fit different learners.
- **Inclusive** — everyone gets a fair chance to learn.
- **Engaging** — uses different ways to keep students interested.

- a. Virtue
 - b. Integrative
 - c. Speculative
 - d. Experiential
64. Which of the following statements shows the highest level of learning outcome in teaching dance steps?
- a. Familiarize dance steps in tango
 - b. Present tango dance of the proper techniques and creative moves and steps.
 - c. Create dance steps for modified tango.
 - d. Determine strategies and steps in dancing tango.
65. According to varied research studies, what is the benefit of MAPEH subjects by way of contributing to learning among school learners?
- a. These particularly inspire students to enter medical schools.
 - b. These contribute to improved learning
 - c. These induce career in music or arts
 - d. These have high enjoyment among learners
66. "Peer pressure has either positive or negative impact, depending on the quality of the peer group, which is a positive impact?
- a. Pushing a susceptible individual down the wrong way.
 - b. Convincing a person to follow their habit as a way of seeking acceptance.
 - c. Pushing an individual to do his best just like anyone of them.
 - d. Keep a group within acceptable code of behavior.
67. After completing their personal fitness assessments, the teacher asks each student to write down an individual fitness goal and three possible ways to achieve this. Which is the primary benefit of this activity?
- a. It allows the student the opportunity to focus either on an area of strength and weakness
 - b. It minimizes student resistance to participate in efforts to improve fitness
 - c. It gives the student greater individual responsibility for his/her own learning and fitness
 - d. It maintains the privacy of each student in developing and pursuing fitness goals
68. Student concerns, interests, views and ideas are central to achieve learning and to the classroom assessment of comprehensive health education. This principle states that an effective health education is _____.
- a. Collaborative
 - b. Multiple intelligences-based
 - c. Responsive and relevant
 - d. Interactive
69. Teacher A makes it a point to give the song its historical background before teaching it to the class. On which principle of music education her practice based?
- a. Music is an opportunity to teach moral and spiritual value
 - b. Music is an opportunity for self-expression through a group activity
 - c. Music is a means to the duties of citizenship
 - d. Music offers an opportunity for understanding other people and their cultures
70. Which illustrates a "spiraling" approach to Arts curriculum?
- I. Comprehensive and sequential arts experiences that begin in preschool continue throughout high school to provide the foundation for lifelong learning in the arts

III. In order to build a knowledge base in the arts, students need repeated exposure to process, content, concepts, and questions, and the opportunity to solve increasingly challenging problems as their skills grow.

- a. II
- b. I and III
- c. II and III
- d. I, II and III

71. How is the “spiralling” approach in the Arts curriculum-based achieved?

- a. Adapting arts to capacities of students in different grades
- b. Repetition of learning from lower to higher grades
- c. Added difficulties for higher grades
- d. Sequential and continuing arts learning and experiences

72. What lighting position is best for reading?

- a. From above
- b. From the front
- c. From the right
- d. From the left

73. Here is a learning outcome in the subject Research in MAPEH: apply theories and principles in conducting MAPEH research. Which assessment task is aligned to this learning outcome?

- a. The students do Power point presentation on theories and principles in conducting research.
- b. The students answer written tests on theories and principles.
- c. The students conduct research and present a research report.
- d. The students take a test on research.

74. Which of the following is an example of holistic rubric in physical education?

- a. Rating individual skills separately
- b. Providing detailed feedback for improvement
- c. Assessing overall performance as a whole
- d. Assigning numerical scores for specific criteria

75. Compared with other components of MAPEH, Physical education is particularly vulnerable to accidents and injuries due to negligence. Which among the following describes a kind of negligence that occurs based on the lack of action of the teacher in carrying out a duty?

- a. Nonfeasance *lack of action*
- b. Contributory negligence *failure to care of workers' safety*
- c. Torts *harm Intentionally harmed*
- d. Liability

76. What practice goes with authentic assessment?

- a. Make students play volleyball to determine if they learn how to play volleyball
- b. Make students recite the dos and don'ts of playing volleyball
- c. Make students check their own answers after quiz
- d. Make students come up with a flow chart to demonstrate a process

77. When planning goals for lessons in health class, teacher should consider all the following as primary concern EXCEPT:

- a. what generates enthusiasm in the learner for the subject
- b. how easily the material can be presented in class
- c. what types of learners make up the class population
- d. how information presented is relevant to the learner

78. Farah was able to develop movement accuracy through her participation in arts and sports activities. What skill was developing in her?

- a. Mental skill

79. In using the convergent style of teaching, which of the following is a complex problem?
- What are the different ways of tossing the volleyball to your spiker?
 - How can you make your back as close as possible to the floor with your legs on the air?
 - What is the best offensive solution when a defender is playing a very tight defense in basketball?
 - In shot put, what is the best angle of release for maximum distance?
80. Which should be first taught to children?
- Singing folk music
 - Music composition
 - Reading notes
 - Blending voices
81. Why is performance given the largest weight in TLE and MAPEH subjects?
- They are dominantly physical skill subjects
 - They have no cognitive aspect
 - They have no affective aspect
 - The written and quarterly tests are given only 20% weight each
82. Mrs. Cruz wants to inspire all students without exception to reach their fullest creative potential. Which principle of art education is this practice anchored?
- Inclusive education
 - Integrative education
 - Constructive teaching
 - Collaborative teaching
83. Which is a direct teaching activity that allows students to imitate from demonstration or infer from observation the behavior to be learned?
- Lecturing
 - Discovering
 - Modelling
 - Inquiring
84. An effective assessment practice is multidimensional. How is this applied in MAPEH?
- Assessment sticks to authentic tests.
 - The written test combines objective and essay tests.
 - Assessment is done with the use of varied tools and tasks.
 - Assessment excludes traditional tests
85. Which of the following subject matters can creative work be applied?
- Folk dance
 - Interpretative dance
 - Social dance
 - Square dance
86. A group of students are planning to address the garbage problem in their community. During their brainstorming several measures were suggested by all the members. Soon after, they divided the work among themselves to accomplish the task. Which of the following techniques is illustrated in this type of activity?
- Limited exploration style
 - Unlimited exploration style
 - Problem-solving style
 - Cooperative learning style
87. When Miss Rodriguez wants her students to create dance movements, allowing them fully to discover for themselves dance patterns out of the learned motor skills, she is utilizing?
